

**USE OF SCHOOL FACILITIES BY
NON-SCHOOL-SPONSORED STUDENT GROUPS**

Philosophy

It is the purpose of the Board to make school facilities available for student group usage during non-instructional time. Applications by such student groups shall be given preference over non-student groups.

Definitions

A. School facilities are:

- 1.** High school buildings or rooms in high school buildings; and
- 2.** School grounds including playing fields and parking lots.

B. Non-school-sponsored groups are organizations or groups of secondary students from this school system, which are not meeting as part of an official school-sponsored function.

C. Non-instructional time is the time during a scheduled school day before actual classroom instruction or “homeroom” periods begin and after actual classroom instruction or “homeroom” periods end.

The Superintendent is responsible for developing administrative regulations, which provide procedures for implementing this policy.
